CROMDALE

Two days ago we extended an invitation to you to take a ride out to CROMDALE, and see what we were actually offering. Whether you went or not. sir, we do not know, but a considerable number availed themselves of the opportunity with the result that they are now owners of lots situate amongst some of the finest scenery in Edmonton. almost surrounded by the street car service which touches the property in several places, is adjoining the fair and exhibition grounds and overlooks one of the prettiest and most secluded parks in

Alberta. Every lotis in fine shape, ad the unsold balance many of which occupy prininent corners are valuable purchases. Will yu make your selection now, or wait until too late We are selling CROMDALE at the rate of \$0,000 a day nearly. Surely that is ample proof its adaptability to conditions prevailing in Edminton. Once more allow us to emphasize thi point-that CROMDALE is not a sub-division, ut a genuine "inside" deal upon which you should be able to make good returns.

EDMONTON'S HAPPY HOMELAND

To-morrow will see the end of the first week of Evanston before the public and the success of the sale has been remarkable. This, however, was not any greater than we anticipated.

We looked for big things and obtained them. However the satisfaction is not all on our side. Our friends - the purchasers - have bought splendid lots at easy prices and very attractive terms and the future alone can tell how much they will benefit,

On the other hand however, there are many just hesitating on the decision, and to these we would say-come in and see us, talk this realty proposal over with us and hear what we have to tell you, then you can choose for yourselves-you will not be importuned to buy.
